Press Kit

The Muslim World needs a special infrastructure which creates new possibilities for communication in the Internet with the content relevant to Halal Standards. The World Muslim Project "Suhba Connect" is an application created for the smartphones and give users the possibility to freely exchange with the photos, videos, audio and short messages using only Internet connection of the phone.

In translation from Arabic language "Suhba" means "community". "Suhba Connect" makes it possible to create group chats on interest and to make collective audio and video calls.

Newly patented technology of video communication, created by our Partners from "Setevizor" helps the application to sustain heavy loads and to keep the application stable with the rise in number of the users and at the same time do not influence the quality of services.

This application makes better connection quality between the users and use less Internet traffic.

"Suhba Connect" unites all people who supports safe Internet. By installing "Suhba Connect" Messenger, Android and IOS users can freely communicate with friends, families and colleagues all over the Globe. "Suhba Connect" supports 50 languages.

You can install the application using this link: [Suhba Connect](#)

Information on the Developer

The idea of creation of the special Messenger for Muslims belongs to the "Suhba" Company from Kazan city in Russia. "Suhba" Team united together having an aim to create a special Internet environment for Muslims. The main reason comes from the situation when more and more people support common universal values of morality and want to defend themselves and their children from the negative information which is freely spreaded in the World Internet network.

"Suhba" Company is based on the Halal principles and gives people the possibility to be together, no matter what nationality or religion they are, freely communicate with each other, being in one loyal informational environment without the negative content. They united together having the same values such as - traditional family, Multinationality and healthy being as a basic element of the Community.
